

# How does cannabis compare to other drugs?

## Excerpts from the report by the Senate Special Committee on Illegal Drugs...

- "Scientific evidence overwhelmingly indicates that cannabis is **substantially less harmful** than alcohol and should be treated not as a criminal issue but as a social and public health issue."
- "The costs of externalities attributable to cannabis are probably minimal; no deaths, few hospitalizations, and very little loss of productivity."
- "The continued prohibition of Cannabis jeopardizes the health and well-being of Canadians **much more than does the substance itself.**"
- "We estimate the cost of enforcing cannabis drug laws to be **\$1-1.5 billion per annum.**"

**Is this how you want YOUR tax dollars spent?**

**Cannabis law reform is in everyone's best interest... please speak up!**
